

### Three Keys to Behavioral Change

1. **Expectation** – clearly communicate to the student exactly what you **want** him or her to do, or exactly what you **don't want** him or her to do.
2. **Repetition** – provide the student with **ample opportunities** to participate in the behavior – **good or bad!**
3. **Discrimination** – powerfully **contrast the consequences** for appropriate behaviors and inappropriate behaviors.
